TECHNICAL SKILLS

- Frontend JavaScript, HTML5, CSS3, React.js, Tailwind CSS, ES6
- **Backend** Node.js, Express
- Database MongoDB
- **Programming Languages** JavaScript, Python
- Tools and Others Git/Github, VS Code, Vercel, Netlify, Linux, REST API, Postman, Vite, NPM

EDUCATION

- Basavakayan Engineering College, Basavakalyan, Bidar, Karnataka | B.E In Computer Science And Engineering | CGPA -7.85/10.00 | 2024
- Virabhadreswar P U College Humnabad, Bidar, Karnataka | 12th CBSE | 2020
- Shantiniketan School Humnabad, Bidar, Karnataka | 10th SSLC | 2018

PROJECTS

1. E-COMMERCE PLATFORM (2024 july)

Tech Stack: JavaScript, React.js, Node.js, MongoDB, REST API, Express.js

- Developed a full-stack e-commerce platform featuring product listings, user authentication, and payment gateway integration.
- Designed and implemented an admin panel for managing products, orders, and user accounts.
- Secured user authentication using JWT and bcrypt.
- Created a multi-page architecture to improve user interaction and navigation

2. MOVIE APP (2024 August - September):

Tech Stack: JavaScript, Tailwind CSS, React.js, Node.js, MongoDB, REST API, Express.js

- Developed a full-stack movie application using the MERN stack.
- Implemented secure user authentication with JWT and bcrypt, along with a password recovery feature.
- Designed an admin panel with role-based access control for efficient movie management.
- Created a movie search feature using Axios for API requests to enhance user experience.

3. BLOGGER (2024 October-November):

Tech Stack: JavaScript, EJS, Node.js, MongoDB, REST API, Express.js

- Built a full-stack blogging platform with features like posting, commenting, and viewing blogs.
- Integrated secure user authentication with JWT and file uploads using Multer.
- Designed a responsive user interface with Bootstrap for seamless cross-device compatibility.
- Optimized backend using modular services, middleware, and MongoDB schema design.

4. EMPLOYEE MANAGEMENT SYSTEM (2024 september - october)

Tech stack: React Js, Tailwind CSS

- Admin Dashboard: Allows administrators to assign tasks, track task progress, and employee activities.
- Employee Dashboard & Task Management: Allows employees to manage and track tasks in real-time.
- Local Storage: Utilized local storage to maintain data integrity and ensure persistence across sessions.
- User Roles: Implemented role-based access control for differentiating between admin and employee functionalities

CERTIFICATIONS

MERN Stack Development Internship: Vstan4U Solutions Completed: [2024]

Completed a MERN stack internship, developing an e-commerce platform with MongoDB, Express.js, React.js, and Node.js, focusing on user authentication and product management.
